

James Green

A hardworking, local candidate for Calne North

Personal Statement

Five-and-a-half years ago, I moved to Calne to work for a local small business on our high street. In that time, I have come to love this friendly and welcoming town. I truly feel that it has adopted me as one of its own. I feel that now, having settled here permanently, the time has come to give something back and help support the town that has given me so much in my time here. As a Liberal Democrat, if selected, I will work hard to listen to the people of Calne North, to find the issues that matter to them and to work to find local, liberal solutions to their challenges.

My Priorities

- My number one priority as a candidate will be speaking to the people of Calne North on the doorsteps and campaigning on their issues, in the best traditions of our party.
- I will work hard to build a local network for the party in Calne North. We need to grow our membership and support in the ward to build on our recent successes there. In knocking on doors, I will work to find our supporters and convert them into activists.
- I will campaign for better public transport connections for Calne, for sustainable but necessary development in our town, and for better facilities for health and social care and for education and youth services.

My Strengths

- I have strong links with both residents and businesses in Calne. I run a local choir, have helped at local churches, and work for a small business on the High Street. My personal links in the town will help me be a known, local candidate.
- I am a passionate and dedicated individual. I have been campaigning for the party since university and will fight for our ideals and our beliefs in local government. I have been involved in campaigns across the UK, from North East Fife to Lewisham East, and most recently campaigned hard in our general election campaign for Chippenham constituency. I am proud to have assisted in getting Sarah Gibson elected to parliament.
- As a probate genealogist, my job is to help people – to advocate for them and their needs during some of the hardest times of their life. The empathy and other skills required for this, particularly in listening to their problems and dealing with them stand me in good stead to be an effective councillor in dealing with casework and in supporting the concerns of our constituents.

Contact me! I'd love to hear from you if you have questions, want to know more or even just want to chat.
